

Game Rules

Snap Game

Object of the game: To win all the card

Shuffle the cards and deal all of them amongst the players. Each player keeps their cards face down.

The player to the left of the dealer starts by turning over their top card and placing it face up in the middle.

Each player takes a turn and turns over their top card and places it onto the pile in the middle.

When a card is turned over which is the same as that already laying face up in the middle, the first player to call "Snap" wins the pile of cards in the middle and puts them face down at the bottom of their own pile of cards.

That player then restarts the game by taking their top card and starting a new pile of cards in the middle.

When a player runs out of cards they are out of the game. The winner is the player left with all the cards.
