Properties:

Biodegradable, mild, acidic detergent based on citric acid for daily cleaning of sanitary facilities. The product is ready to use, does not require dilution. Safe for any type of surface, including enamel, acrylic, chrome, nickel and plastic elements. Designed for cleaning bathtubs, shower trays, shower cubicles, bathroom fittings, stainless steel elements, shells, urinals, washbasins, tiles, ceramic tiles, etc. Thanks to biodegradable, active ingredients, it effectively removes dirt, deposits, rusty and residues typical of sanitary facilities. It dries quickly, and thanks to the enrichment of the formula with polymers, the preparation protects the surfaces against further dirt. Leaves a fresh lemon scent.

Instructions for use:

1. Shake before use.
2. Spray the preparation evenly on the surface to be cleaned from a distance of about 20 cm, leave it for at least 1 minute.
3. Use a sponge to remove dirt, sediment and stains.
4. Rinse the preparation with water.
