

A107 TYRE REPAIR KIT

1 – DESCRIPTION

TYRE REPAIR KIT eliminates the need for an immediate tire change, sealing and inflating your tire within seconds.

2 – PROPERTIES

- No need for lifting- jack or any other tools.
- Finds the hole in the tire and seals it
- Water based.
- Can be cleaned easily with the water after application
- Does not harm the tire valve
- Instantly repairs punctured tires, without removing the wheel
- Inflates the tire (up to a pressure of 1 to 2 bar), so that one can immediately continue to drive at a moderate speed.
- Harmless to tires and wheels.

3 – APPLICATIONS

- For cars, motorcycles, caravans and trailers.
- For tubeless tires.

4 – INSTRUCTIONS

- Shake the spray can before use.
- Ideal processing temperature 15°C to 25°C.
- Turn the wheel until the valve is at the top.
- Completely deflate the tire. Screw the connection of the spray can to the tire valve. Upturn the spray can and inject the entire contents.
- It is recommended to have the tire repaired as soon as possible. Before repair please clearly inform the tire service that this product has been used.
