QUALITY LABEL

Royal Talens is a worldwide supplier of a complete range of high-quality fine art products. Our artists' easels produced in Europe are an essential part of this program. These quality easels are the result of years of experience and in-depth knowledge of all aspects of the painting process. With a focus on functionality and quality, Royal Talens constantly focuses its product development with the end user in mind. The extensive range of artists' easels from Royal Talens therefore offers you maximum support, reliability and functionality. Royal Talens produces all its artists' easels from the highest quality European beech wood. This is a hardwood variety that due to its fine and uniform structure retains its shape and not effected by temperature. This makes it ideal for use in artists' easels. The easels are infused with oil, guaranteeing optimal surface protection and giving the easels a luxurious look. We hope you will enjoy using this Royal Talens product.

Royal Talens*

PAINTING EASEL

Under “Top essentials in fine art” Royal Talens offers a very wide range of supporting materials, such as stretched canvas, easels and brushes for which functionality and quality are of paramount importance. The easels of Royal Talens are geared to the specific wishes of the various end users. From table easels to studio easels, for use both inside and outside, for every situation Royal Talens offers an optimal product.

- > The extensive range of studio easels are very solid and offer a wide range of adjustment possibilities for optimal use.
- > Table easels save space and are very practical. They are suitable for working while sitting at a table, as well as for smaller canvases.
- > All field easels are lightweight, and easy to assemble and fold out.
- > The table box easels are also available in combination with an artists' box.

All easels are made of first-class beech wood of European quality and offer optimal stability and ease of use. In addition, all easels are suited for the use of 3D canvases.
