

## GAME RULES

Dropzone challenges players to construct a marble run that leads marbles from their drop point to their target base. The drop point for each marble is always on top of the marble run, directly above the base matching its color. The target base will vary in each challenge.

- 1 Select a challenge:** Each challenge shows a game board with six bases and one or more marbles in their target base. Place the marbles in their target base as shown in the challenge. Marbles not used in a challenge can be stored in the center of the game board.
- 2 Construct a marble run:** Use the puzzle pieces to construct a marble run that leads marbles from their drop point to their target base. Each challenge shows the minimum number of puzzle pieces needed to solve the challenge.
- 3 Check your solution:** To check your solution, take the marbles and drop them from their drop point. If each marble returns to its target base, you have successfully solved the challenge! The shortest solution for each challenge is shown at the end of the booklet.
